ATN, Inc. ("ATN" or "Applicant") hereby submits its application for a Certificate of Public Convenience and Necessity to resell interLATA, intraLATA and local "O+" collect calling telecommunications services in South Carolina. II. Description of the Applicant

1. Applicant is a Georgia Corporation, which was formed on December 7, 1992. The company is headquartered at 913 Dilworth Street, St. Marys, Georgia

31558.

2. ATN provides automated collect (postpaid and prepaid) intrastate telecommunications services as well as debit services to inmates of prisons, jails and other confinement institutions. The Company installs sophisticated premises equipment within the facility which permits inmates to make outgoing, collect-only calls without the assistance of a live operator. For collect calling services, ATN's call processing system provides automated voice prompts to the calling and the called party for instructions on how to place and accept the call. The called party must accept the call with an affirmative response. If such a response is not received, the call is terminated automatically. ATN's system collects and stores collect call detail information for each call.

Customers are charged individually for each call placed through the Company's network. Charges may vary by service offering, and/or call duration. Customers are billed based on their use of ATN's services and network.

3. ATN will switch calls through their underlying carrier. Calls are routed over switched access facilities to the nearest underlying carrier's point of presence, the underlying carrier transports the calls to its switch and terminates calls over its own terminating network. ATN's underlying carrier is AT&T. The Applicant was granted a certificate of public convenience and necessity to provide customer owned, coin or coinless operated telephones by Order 1993-188 in docket no. 1985-150-C. By Order 1999-273 dated April 14, 1999 the Applicant's

commission granted Applicant's name change to ATN, Inc. by which it has operated since.

4. ATN contracts for services from its underlying carrier at discounted rates based on a long-term volume commitment. ATN's underlying transmission carrier is selected based on the best mix of quality, service and price.
5. ATN has been providing inmate operator services since 1992 and has a team of managers and support personnel who are well qualified to operate a telecommunications business and provide the proposed services. Additionally, ATN relies on its underlying carrier's technical expertise for the operation, maintenance and supervision of the network.
6. Applicant has the financial ability to provide resold telecommunications services within the State of South Carolina. ATN attaches its balance sheet and income statement for 2007, filed under seal. ATN is a privately held company. Accordingly, its financial statements are not public information. As a privately-held company, it does not issue annual reports or submit any financial filings with the Securities and Exchange Commission. The Applicant respectfully requests that these financial statements disclosed in connection with this Application be filed under seal, solely for the purpose of the Commission and the Office of Regulatory Staff's review. The Applicant is simultaneously filing a motion for protective treatment of Exhibit IV with this application.

7. Customer Service

ATN's customer service representatives are available to assist its customers and will promptly respond to all customer inquiries. Customers may call (800) 849-6081 or a local number. The applicable toll free or local numbers will be printed on customers' monthly billing statements. Alternately, customers wishing to communicate with an ATN customer service representative in writing may send written correspondence to ATN at:

ATN, Inc.
ATTN: Customer Service
913 Dilworth Street
St. Marys, Georgia 31558

III. Marketing Practices

Pursuant to the South Carolina Public Service Commission's Order No. 95-658 (issued March 20, 1995), Applicant makes the following affirmation relating to the Applicant's provision of services:

As a telephone utility under the regulation of the Public Service Commission of South Carolina, Carrier does hereby assert and affirm that as a reseller of intrastate telecommunications service, Carrier will not indulge or participate in deceptive or misleading telecommunications marketing practices to the detriment of consumers in South Carolina, and will comply with those marketing procedures, if any, set forth by the Public Service Commission. Additionally, Carrier will be responsible for the marketing practices of its contracted telemarketers for compliance with this provision. Carrier understands that violation of this provision could result in a rule to show cause as to the withdrawal of its certification to complete intrastate telecommunications traffic

within the state of South Carolina.

IV. Flexible Regulation of Local Services and Alternative Regulation of Interexchange Services

Applicant respectfully requests that its local service offerings be regulated in accordance with procedures authorized for NewSouth Communications in Order No. 98-165 in docket No. 97-467-C. Additionally, Applicant respectfully requests that its interexchange service offerings be regulated in accordance with procedures established for alternative regulation in Order Nos. 95-1734 and 96-55 in Docket No. 95-661-C.

V. Waivers and Regulatory Compliance

ATN requests that the Commission grant it a waiver of those regulatory requirements inapplicable to competitive local service resellers such as ATN. Such rules are not appropriate or necessary for competitive providers and constitute an economic barrier to entry into the local exchange market.

1. Financial Record-Keeping System

a. ATN respectfully requests that it be exempt from any record-keeping rules or regulations that might require a carrier to maintain its financial records in conformance with the Uniform System of Accounts ("USOA"). The USOA was developed by the FCC as a means of regulating telecommunications companies subject to rate base regulation.

b. As a competitive carrier, ATN maintains its book of accounts in accordance with Generally Accepted Accounting Principles ("GAAP"). Neither the FCC, nor the Commission, has required ATN to maintain its records under the USOA for purposes of ATN's interexchange operations. Thus, ATN does

not possess the detailed cost data required by USOA, nor does it maintain detailed records on a state-specific basis. As a competitive provider, ATN's network operations are integrated to achieve maximum efficiency. Having to maintain records pertaining specifically to its South Carolina local service operations would place an extreme burden on ATN.

c. Moreover, ATN asserts that because it utilizes GAAP, the Commission will have a reliable means by which to evaluate ATN's operations. Therefore, ATN hereby respectfully requests to be exempt from the any USOA requirements of the Commission.

d. In addition, the Company hereby respectfully requests a waiver of 26 S.C. Code & Ann. Regs. 103-610, which requires books and records to be kept in the State of South Carolina, but rather, the Company's desires to keep its books and records at its principal place of business.

2. Local Exchange Directories

Given the nature of the services, Applicant respectfully requests a waiver of the requirement in Rule 103-631 to publish and distribute local exchange directories.

3. Maps

Applicant's local exchange calling areas will initially mirror the service areas of the incumbent local exchange carriers; therefore, Applicant hereby respectfully requests a waiver of the map-filing requirement pursuant to 26 S.C. Code & Ann. Regs. 103-612.2.3 and of 26 S.C. Code Ann. Regs. 103-

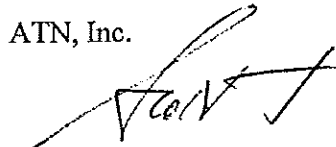

631 requiring publication of directories.

VI. Conclusion

WHEREFORE, ATN, Inc. requests that the South Carolina Public Service Commission issues a Certificate of Public Convenience and Necessity authorizing it to provide resold interLATA, intraLATA and local "O+" collect calling telecommunications services to the public as proposed herein and set forth in the attached tariff.

Respectfully submitted,

ATN, Inc.

The services offered by the Company subject to this tariff consist of furnishing Collect, Person to Person Collect Calls, Prepaid Collect Calls, and Debit Card Calls through store and forward technology incorporating an automated operator and the resale of transmission services of other carriers.

Because the services offered hereunder are provided to inmates of a correctional facility or similar institution, special stipulations may apply. These stipulations are designed to preserve the integrity and security of the facility, the safety of the public and to reduce fraud and harassment. When deemed appropriate by the facility administration, these include: providing outward only calls; providing 0+ Collect Calls only for local, intraLATA toll and interLATA toll calls and blocking access to all other types or forms of calls; blocking access to local Directory Assistance (411), long distance Directory Assistance (555-1212), 911 calls, toll free numbers including 1-800, 700, 900, 950, 10XXX and any other telephone numbers the facility administration directs; limiting hours during which telephone service is available to inmates; and/or limiting call duration to a time interval established by the facility administration.

Services furnished by the Company may be connected with services or facilities of other authorized Common Carriers and with private systems, subject to the technical limitations established by the Company. The services of the Company are not part of a joint undertaking with any other entity providing telecommunications channels, facilities or services, but do involve the resale of the Message Toll Services (MTS) and Wide Area Telecommunications Services (WATS) of underlying Common Carriers who may be subject to the jurisdiction of this Commission.

The rates and regulations contained in this tariff apply only to the services furnished by the Company and do not apply, unless otherwise specified, to the lines, facilities, or services provided by a local exchange telephone company or other Common Carrier for use in accessing the services of the Company.

SECTION 2 - RULES AND REGULATIONS, CONT.

2.18 - RESTORATION OF SERVICE

- 2.18.1 If service has been discontinued for nonpayment or as otherwise provided herein and the Customer wishes it continued, service shall, at the Company's discretion, be restored when all past due amounts are paid or the event giving rise to the discontinuance (if other than nonpayment) is corrected.
- 2.18.2 Company may require a Customer to subscribe to a Prepaid account in order to continue inmate calling services, should such services have been discontinued for non-payment of any bill, or inmate collect calling in excess of the predetermined billed party's limit as established by the Company.

2.19 - SPECIAL CONDITIONS FOR INMATE SERVICES

- 2.19.1 A number of special blocking and screening capabilities are available with institutional operator services provided by ATN. These capabilities allow Confinement Facilities to control Inmate access to telecommunications services, reduce fraudulent use of the Company's services, and eliminate harassing calls to persons outside the facility.

For services provided to Inmates of Confinement Facilities, the following special conditions apply:

- (a) At the request of the Confinement Facility, ATN may block inmate access to "800", "888", "950-XXXX", "101XXXX", numbers and other carriers or operator service providers.
- (b) At the request of the Confinement Facility, ATN may block inmate access to "911", "411", or local operators reached through "0-" dialing.
- (c) At the request of the Confinement Facility, ATN may block inmate access to specific telephone numbers.
- (d) Availability of ATN's services may be restricted by the Confinement Facility to certain hours and/or days.
- (e) No notices or signage concerning the Company's services will be posted with its instruments. Information concerning ATN's services is provided to the administration of each Confinement Facility where the Company's services are offered. Inmates may obtain information regarding rates and charges by requesting such information from the institution's administration.

SECTION 2 - RULES AND REGULATIONS, CONT.

- (f) At the request of the Confinement Facility, ATN may place time limits on local and long distance calls placed using its services.
- (g) At the request of the Confinement Facility, equipment may be provided which permits monitoring of inmate calls by legally authorized government officials.
- (h) Calls to "900", "976" or other pay-per-call services are blocked by ATN.

2.19.2 Services and equipment provided to Inmates of Correctional Institutions may utilize specialized features to detect and terminate three way calls. The Customer will be responsible for all call costs for any call terminated early by three way call detection, including but not limited to Customer's call waiting notification features.

2.19.3 The services provided will utilize answer detection software and hardware capable of determining whether and when a call placed from a confinement facility has been accepted by the called party. The service will require an affirmative act by the called party (such as to press the number 0 on the telephone dial pad) to accept the call, and will provide a means by which the called party may deny acceptance of the call (such as to press the number 5 on the dial pad). In the event the called party makes no affirmative act to either accept or deny the call, the call will be terminated.

2.20 – PREPAYMENT REFUNDS

2.20.1 Customers who have established a prepaid debit account through the company, may request a refund of any unused funds. Refunds of unused monies will be provided in not less than sixty (60) days from the date of the refund request. Prepaid accounts will be made inactive and considered expired after twelve months of inactivity.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES

3.1 GENERAL

Calls are billed individually for each call placed through the Carrier. Charges are computed on an airline mileage basis as described in Section 3.4 of this tariff.

Rates vary by mileage band, time of day, day of week and call duration.

Customers are billed based on their use of ATN's local and long distance service. No installation charges or fixed monthly recurring charges apply.

3.2 - PRODUCT DESCRIPTIONS

All intrastate services are offered in conjunction with similar interstate services.

- 3.2.1 Inmate Operator Assisted Collect Service allows End Users to place collect calls through an automated call processing system. The call processing system prompts the call originator and the called party such that the call is completed without live operator assistance. Calls are placed collect to the called party. Collect Calling is a billing arrangement whereby the originating caller bills the charges for a call to the called party, provided that the called party agrees to accept the charges.
- 3.2.2 A Prepaid Account, or PIN Debit Account, preserves the features of a collect call, whereby the End Users place calls through an automated call processing system. The call processing system prompts the call originator and the called party such that the call is completed without operator assistance. The Customer may refuse to accept the call and no charges will accrue. Should the called party agree to accept the charges, the charges for the call will be deducted from the Customer prepaid account at the completion of the call. If the charges for the call exceed the available prepaid account balance, the automated equipment may terminate the call when the account remaining account balance will not cover the charges for one additional minute.
- 3.2.3 A Debit Card Account is an End User or Customer prepaid account wherein a specified value of call services is purchased by either the End User or Customer. Unlike a prepaid or advance payment account a Debit Card account balance is not held against future payment in that all inmate calling services are available for immediate consumption.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, CONT.

3.3 - TIMING OF CALLS

- 3.3.1 Long distance usage charges are based on actual usage of ATN's network. Timing for automated collect calls begins when the called party accepts the charges for the call.
- 3.3.2 Timing of each Collect Call begins when the called party accepts responsibility for the charges and ends upon disconnection by either party, or hanging up. This will be determined by the standard industry method for ascertaining answer and disconnect, including hardware answer supervision in which the LEC sends a signal to the switch or the software utilizing audio tone detection, or as determined by standard industry methods generally in use for ascertaining answer and disconnect as determined by the underlying Common Carrier for the Company's services, where answer supervision is available.
- 3.3.3 Calls are billed in full minute increments.
- 3.3.4 No charges apply for incomplete calls.

3.4 - CALCULATION OF DISTANCE ("V&H")

- 3.4.1 Usage charges for all mileage-sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call.
- 3.4.2 The service wire centers of a call are determined by the area codes and exchanges of the origination and destination points.
- 3.4.3 The distance between the wire center of the Customer's equipment and that of the destination point is calculated by using the vertical ("V") and horizontal ("H") coordinates found in Bellcore's V&H Tape and NECA FCC Tariff No. 4.
 - Step 1 - Obtain the "V" and "H" coordinates for the wire centers serving the Customer and the destination point.
 - Step 2 - Obtain the difference between the "V" coordinate of each of the wire centers. Obtain the difference between the "H" coordinates.

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, CONT.

- Step 3 - Square the differences obtained in Step 2.
- Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the wire centers.

Formula:

$$\text{Mileage} = \sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$
